

# CUB can help your community save!

**We offer a variety of free, money-saving services:**

- **Utility-bill clinics**—Attendees can bring their gas, electric, and phone bills for a free one-on-one consultation by CUB's experts, who will give tips on how to cut them. At clinics across Illinois, CUB has shown consumers how to trim their bills by an average of more than \$200 a year. These are our most popular events--for good reason!

- **Speaking engagements**—CUB staffers are available to speak to consumers about a wide variety of utility issues, including how to cut bloated phone and cable bills, how to keep natural gas and electric costs under control, and what choices are available in the electricity and natural gas markets.

- **Energy-efficiency seminars**—CUB's environmental outreach team will tell consumers how they can make their homes more energy efficient by taking advantage of rebates, loans, and other programs offered by the government and utility companies.
